4.5 FTEs¹

MOST IMPACTED CAPITAL²

Relational

MOST IMPACTED STAKEHOLDER

Institutions

¹ Full-time equivalent

² As part of an integrated thinking approach, in 2016 the Office adopted the five capitals value creation model (human, organisational, relational, economic & environmental).

**THE OUT-OF-COMMERCE
WORKS PORTAL**

The main objective of this project is to **establish a public single online portal for the out-of-commerce works**, which was made available to the public on 7 June 2021, by the deadline of transposition of the Directive 2019/790/EU into the national legislation.

The main purpose of the portal is to **provide access to information regarding the ongoing and future uses of out-of-commerce works**. Information is gathered about different types of works, including photographs, software, phonograms, audio-visual works and unique works of art, including never-in-commerce works which can include posters, leaflets, trench journals, but also unpublished works.

The creation of the portal also provides an opportunity to create a network of stakeholders involved in **the digitisation of cultural heritage in the EU Member States**.

EXPECTED BENEFITS

- Increased cooperation with the European Commission and other stakeholders (i.e. cultural heritage institutions, collective management organisations and other relevant public authorities) in the area of out-of-commerce works
- Increased access to the out-of-commerce works held in the collections of cultural heritage institutions
